TITLE OF INVENTION: LOCALLY GENERATING PRICE QUOTES USING ONE OR MORE PRICING TOOLS RECEIVED FROM A SELLER

APPLN. TYPE	SMALL ENTITY	ISSUE FEE DUE	PUBLICATION FEE DUE	PREV. PAID ISSUE FEE	TOTAL FEE(S) DUE	DATE DUE
nonprovisional	NO	\$1510	\$0	\$0	\$1510	10/15/2009

THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: **Mail**

**Mail Stop ISSUE FEE

DATE MAILED: 07/15/2009

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 1520 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 1520 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Steven Laureanti on July 13, 2009.
3. The application has been amended as follows:

1-28. **(Canceled)**

29. **(Currently Amended)** A computer-implemented system ~~comprising a server associated with a buying group for locally generating price quotes, the buying group comprising two or more buyers buying items as a single buying entity, the server associated with the buyer configured to:~~ comprising:

a plurality of buyer computers coupled with a plurality of sellers via a network, each of the plurality of buyer computers comprising a database and a server, wherein a buyer associated with the plurality of buyer computers comprises a buying group comprising two or more buyers buying items as a single buying entity, each server configured to:

receive a plurality of pricing tools from [[a]] the plurality of sellers, each pricing tool configured to generate price quotes for at least one corresponding seller;

locally store the pricing tools received from the plurality of sellers such that the pricing tools are locally accessible to the server associated with the buying group;

access a request for quote (RFQ) specifying an order comprising quantities of one or more items, the RFQ requesting one or more price quotes for the order;

communicate the RFQ to the locally accessible pricing tools;

using the locally accessible pricing tools received from the plurality of sellers, locally generate one or more price quotes for the order;

provide the locally generated price quotes for the order for possible further action by the buying group;

make one or more modifications to the order specified in the RFQ, the modifications being made based on the price quote for the order generated using the locally accessible pricing tools received from the plurality of sellers;

using the locally accessible pricing tools received from the plurality of sellers, locally generate one or more price quotes for the modified order, provide the locally generated price quotes for the modified order for possible further action by the buyer;

iteratively modify the order and locally generate corresponding price quotes to optimize sourcing for the buying group; and

receive a pricing tool update for a particular locally accessible pricing tool, the pricing tool update reflecting one or more price changes for at least one seller, and update the particular locally accessible pricing tool according to the received pricing tool update.

30. **(Previously Presented)** A computer-implemented system for locally generating price quotes, the system comprising:

a plurality of buyer computers coupled with a plurality of sellers via a network, each of the plurality of buyer computers comprising a database and a server, each server configured to:

receive one or more pricing tools from one or more of the plurality of sellers, the one or more pricing tools configured to generate one or more price quotes for one or more corresponding plurality of sellers;

locally store the one or more pricing tools received from one or more of the plurality of sellers in the database coupled with each of the plurality of buyer computers, such that the one or more pricing tools are locally accessible to the server coupled with each of the plurality of buyer computers;

access a request for quote (RFQ) specifying an order comprising quantities of one or more items, the RFQ requesting a price quote for the order;

communicate the RFQ to the locally accessible one or more pricing tools stored in the database;

using the locally accessible one or more pricing tools received from one or more of the plurality of sellers, locally generate, at the corresponding buyer computer, one or more price quotes for the order; and

provide the locally generated one or more price quotes for the order for possible further action by the corresponding buyer computer.

31. **(Previously Presented)** The system of Claim 30, wherein the one or more pricing tools are encrypted to prevent the one or more pricing tools from being used to determine how price quotes are calculated.

32. **(Previously Presented)** The system of Claim 30, wherein a buyer associated with the plurality of buyer computers comprises a buying group comprising two or more buyers buying items as a single buying entity.

33. **(Previously Presented)** The system of Claim 30, wherein the server is further configured to:

receive a pricing tool update from a seller, the pricing tool update reflecting one or more price changes for the seller; and

update the locally accessible one or more pricing tools according to the received pricing tool update.

34. **(Currently Amended)** The system of Claim 30, wherein the server is further configured to:

make one or more modifications to the order specified in the RFQ, the modifications being made based on the price quote for the order generated using the locally accessible one or more pricing tools received from [[the]] one or more of the plurality of sellers;

using the locally accessible one or more pricing tools received from [[the]] one or more of the plurality of sellers, locally generate a price quote for the modified order, and provide the locally generated price quote for the modified order for possible further action by the corresponding buyer computer.

35. **(Previously Presented)** The system of Claim 34, wherein the one or more modifications to the order are made automatically by the server coupled with each of the plurality of buyer computers based on the locally generated price quote for the order.

36. **(Previously Presented)** The system of Claim 35, wherein the server is configured to iteratively modify the order and locally generate corresponding price quotes to optimize sourcing for the corresponding buyer computer.

37. **(Currently Amended)** The system of Claim 30, wherein the server is configured to locally generate the price quote independent of communication with [[the]] one or more of the plurality of sellers subsequent to receiving the one or more pricing tools from [[the]] one or more of the plurality of sellers.

38. **(Currently Amended)** A computer-implemented method for locally generating price quotes, comprising:

receiving receiving, by a server, one or more pricing tools from one or more of a plurality of sellers, sellers coupled with a plurality of buyer computers, each of the plurality of buyer computers comprising a database and a server, the one or more pricing tools received by the server and configured to generate one or more price quotes for one or more corresponding plurality of sellers;

locally storing, by the server, the one or more pricing tools received from one or more of the plurality of sellers in [[a]] the database coupled with each of [[a]] the plurality of buyer computers, such that the one or more pricing tools are locally accessible to the server coupled with the plurality of buyer computers; server;

accessing, by the server, a request for quote (RFQ) specifying an order comprising quantities of one or more items, the RFQ requesting a price quote for the order;

communicating, by the server, the RFQ to the locally accessible one or more pricing tools stored in the database;

using the locally accessible one or more pricing tools received from one or more of the plurality of sellers, locally generating, by the server, at the corresponding buyer computer, one or more price quotes for the order; and

providing, by the server, the locally generated one or more price quotes for the order for possible further action by the corresponding buyer computer.

39. **(Previously Presented)** The method of Claim 38, wherein the one or more pricing tools are encrypted to prevent the one or more pricing tools from being used to determine how price quotes are calculated.

40. **(Previously Presented)** The method of Claim 38, wherein a buyer associated with the plurality of buyer computers comprises a buying group comprising two or more buyers buying items as a single buying entity.

41. **(Previously Presented)** The method of Claim 38, further comprising:
receiving a pricing tool update from a seller, the pricing tool update reflecting one or more price changes for the seller; and
updating the locally accessible one or more pricing tools according to the received pricing tool update.

42. **(Currently Amended)** The method of Claim 38, further comprising:
making one or more modifications to the order specified in the RFQ, the modifications being made based on the price quote for the order generated using the locally accessible one or more pricing tools received from [[the]] one or more of the plurality of sellers;

using the locally accessible one or more pricing tools received from [[the]] one or more of the plurality of sellers, locally generating a price quote for the modified order, and providing the locally generated price quote for the modified order for possible further action by the corresponding buyer computer.

43. **(Previously Presented)** The method of Claim 42, wherein the one or more modifications to the order are made automatically based on the locally generated price quote for the order.

44. **(Previously Presented)** The method of Claim 43, further comprising iteratively modifying the order and locally generating corresponding price quotes to optimize sourcing for the corresponding buyer computer.

45. **(Currently Amended)** The method of Claim 38, wherein locally generating the price quote comprises generating the price quote independent of communication with [[the]] one or more of the plurality of sellers subsequent to receiving the one or more pricing tools from [[the]] one or more of the plurality of sellers.

46. **(Currently Amended)** Software associated with a plurality of buyer computers for locally generating price quotes, the software embodied in a computer-readable medium and when executed using one or more computers is configured to:

receive one or more pricing tools from one or more of a plurality of ~~sellers~~, sellers coupled with a plurality of buyer computers, each of the plurality of buyer computers comprising a database and a server, the one or more pricing tools configured to generate one or more price quotes for one or more corresponding plurality of sellers;

locally store the one or more pricing tools received from one or more of the plurality of sellers in the database, ~~a database coupled with the plurality of buyer computers~~, such that the one or more pricing tools are locally accessible to the software associated with the buyer computer;

access a request for quote (RFQ) specifying an order comprising quantities of one or more items, the RFQ requesting a price quote for the order;

communicate the RFQ to the locally accessible one or more pricing tools stored in the database;

using the locally accessible one or more pricing tools received from one or more of the plurality of sellers, locally generate, at the corresponding buyer computer, one or more price quotes for the order; and

provide the locally generated one or more price quotes for the order for possible further action by the corresponding buyer computer.

47. **(Previously Presented)** The software of Claim 46, wherein the one or more pricing tools are encrypted to prevent the one or more pricing tools from being used to determine how price quotes are calculated.

48. **(Previously Presented)** The software of Claim 46, wherein a buyer associated with the plurality of buyer computers comprises a buying group comprising two or more buyers buying items as a single buying entity.

49. **(Previously Presented)** The software of Claim 46, further configured to:
receive a pricing tool update from a seller, the pricing tool update reflecting one or more price changes for the seller; and
update the locally accessible one or more pricing tools according to the received pricing tool update.

50. **(Currently Amended)** The software of Claim 46, further configured to:
make one or more modifications to the order specified in the RFQ, the modifications being made based on the price quote for the order generated using the

locally accessible one or more pricing tools received from ~~[[the]]~~ one or more of the plurality of sellers;

using the locally accessible one or more pricing tools received from ~~[[the]]~~ one or more of the plurality of sellers, locally generate a price quote for the modified order, and provide the locally generated price quote for the modified order for possible further action by the corresponding buyer computer.

51. **(Previously Presented)** The software of Claim 50, wherein the one or more modifications to the order are made automatically by a server coupled with the plurality of buyer computers based on the locally generated price quote for the order.

52. **(Previously Presented)** The software of Claim 51, further configured to iteratively modify the order and locally generate corresponding price quotes to optimize sourcing for the corresponding buyer computer.

53. **(Currently Amended)** The software of Claim 46, further configured to locally generate the price quote independent of communication with ~~[[the]]~~ one or more of the plurality of sellers subsequent to receiving the one or more pricing tools from ~~[[the]]~~ one or more of the plurality of sellers.

54. **(Currently Amended)** A computer-implemented system ~~associated with a plurality of buyer computers~~ for locally generating price quotes, comprising:

a plurality of buyer computers coupled with a plurality of sellers via a network, each of the plurality of buyer computers comprising a database and a server, each server comprising:

means for receiving one or more pricing tools from one or more of [[a]] the plurality of sellers, the one or more pricing tools configured to generate one or more price quotes for one or more corresponding plurality of sellers;

means for locally storing the one or more pricing tools received from one or more of the plurality of sellers in [[a]] the database coupled with [[a]] each of the plurality of buyer computers, such that the one or more pricing tools are locally accessible to [[a]] the server coupled with each of the plurality of buyer computers;

means for accessing a request for quote (RFQ) specifying an order comprising quantities of one or more items, the RFQ requesting a price quote for the order;

means for communicating the RFQ to the locally accessible one or more pricing tools stored in the database;

means for locally generating, at the corresponding buyer computer, one or more price quotes for the order using the locally accessible one or more pricing tools received from one or more of the plurality of sellers; and

means for providing the locally generated one or more price quotes for the order for possible further action by the corresponding buyer computer.

Allowable Subject Matter

4. Claims 29-54 are pending and allowed.
5. The following is an examiner's statement of reasons for allowance:

The closest prior art of Haji (US 2002/0035511 A1) teaches a web page transmission section transmits a web page with a quotation calculation program added from a server. A data reception section receives a quotation calculation result. When

an analysis section determines that the quotation calculation result is valid, a quotation issuing section issues a formal quotation.

In regarding to independent claims 29-30, 38, 46 and 54, Haji taken either individually or in combination with other prior art of record fails to teach or render obvious locally generating price quotes comprising a plurality of buyer computers coupled with a plurality of sellers via a network, each of the plurality of buyer computers comprising a database and a server as claimed by the applicant.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
